

By stifling XM broadcasts you are infringing on freedom of speech. Keep your noses out of everyones lives. I pay for XM service and trust the production team at XM to bring me the content I want to listen to.

The FCC and all the church organizations are really starting to get on my last nerves. Who are you to tell me what is and is not appropriate for me to listen to?

Stay out of pay- for- services and stick to ruining mainstream radio by pandering to church groups.
